and coins.

LUCKLEY LECTURES PRESENTS

MATHEMAGICAL

Wednesday, 28 February, 18:00 – 18:45

JOIN US FOR A MATHEMAGICAL EVENING
Wednesday, 28 February, 18:00 – 18:45

‘Mathemagical’ offers a mix of magic, Mathematics and History with the promise of entertainment and wonder for anyone aged 10 and above. It is not just for number fanatics or Mathematical geniuses. What awaits is magic... performed with playing cards, ropes, guillotines and coins. A glimpse behind the scenes (if you are lucky) will give you an insight into how the magic happens and understandably, it is a game of numbers. This is no surprise given the lecture will be delivered by Luckley’s Former Deputy Head Academic and Mathematics teacher, Ian Vallance.

ABOUT IAN VALLANCE

IAN’S ‘MATHEMAGICAL’ PERFORMANCE RETURNS TO LUCKLEY BY POPULAR DEMAND. IAN HOLDS A MASTERS DEGREE IN MATHEMATICS EDUCATION, HAS BEEN HEAD OF MATHEMATICS AT A NUMBER OF SCHOOLS AND IS AN ASSOCIATE OF THE INNER MAGIC CIRCLE, LONDON.
